

< Base { children }>
 < Page { children }>
 < Partials...>
 < /Page>
 < /Base>

Result → redefine w/ generics
 StringerFeed → DTOs
 Favicon → feed
 StringerItem → DTOs
 → Read/unread

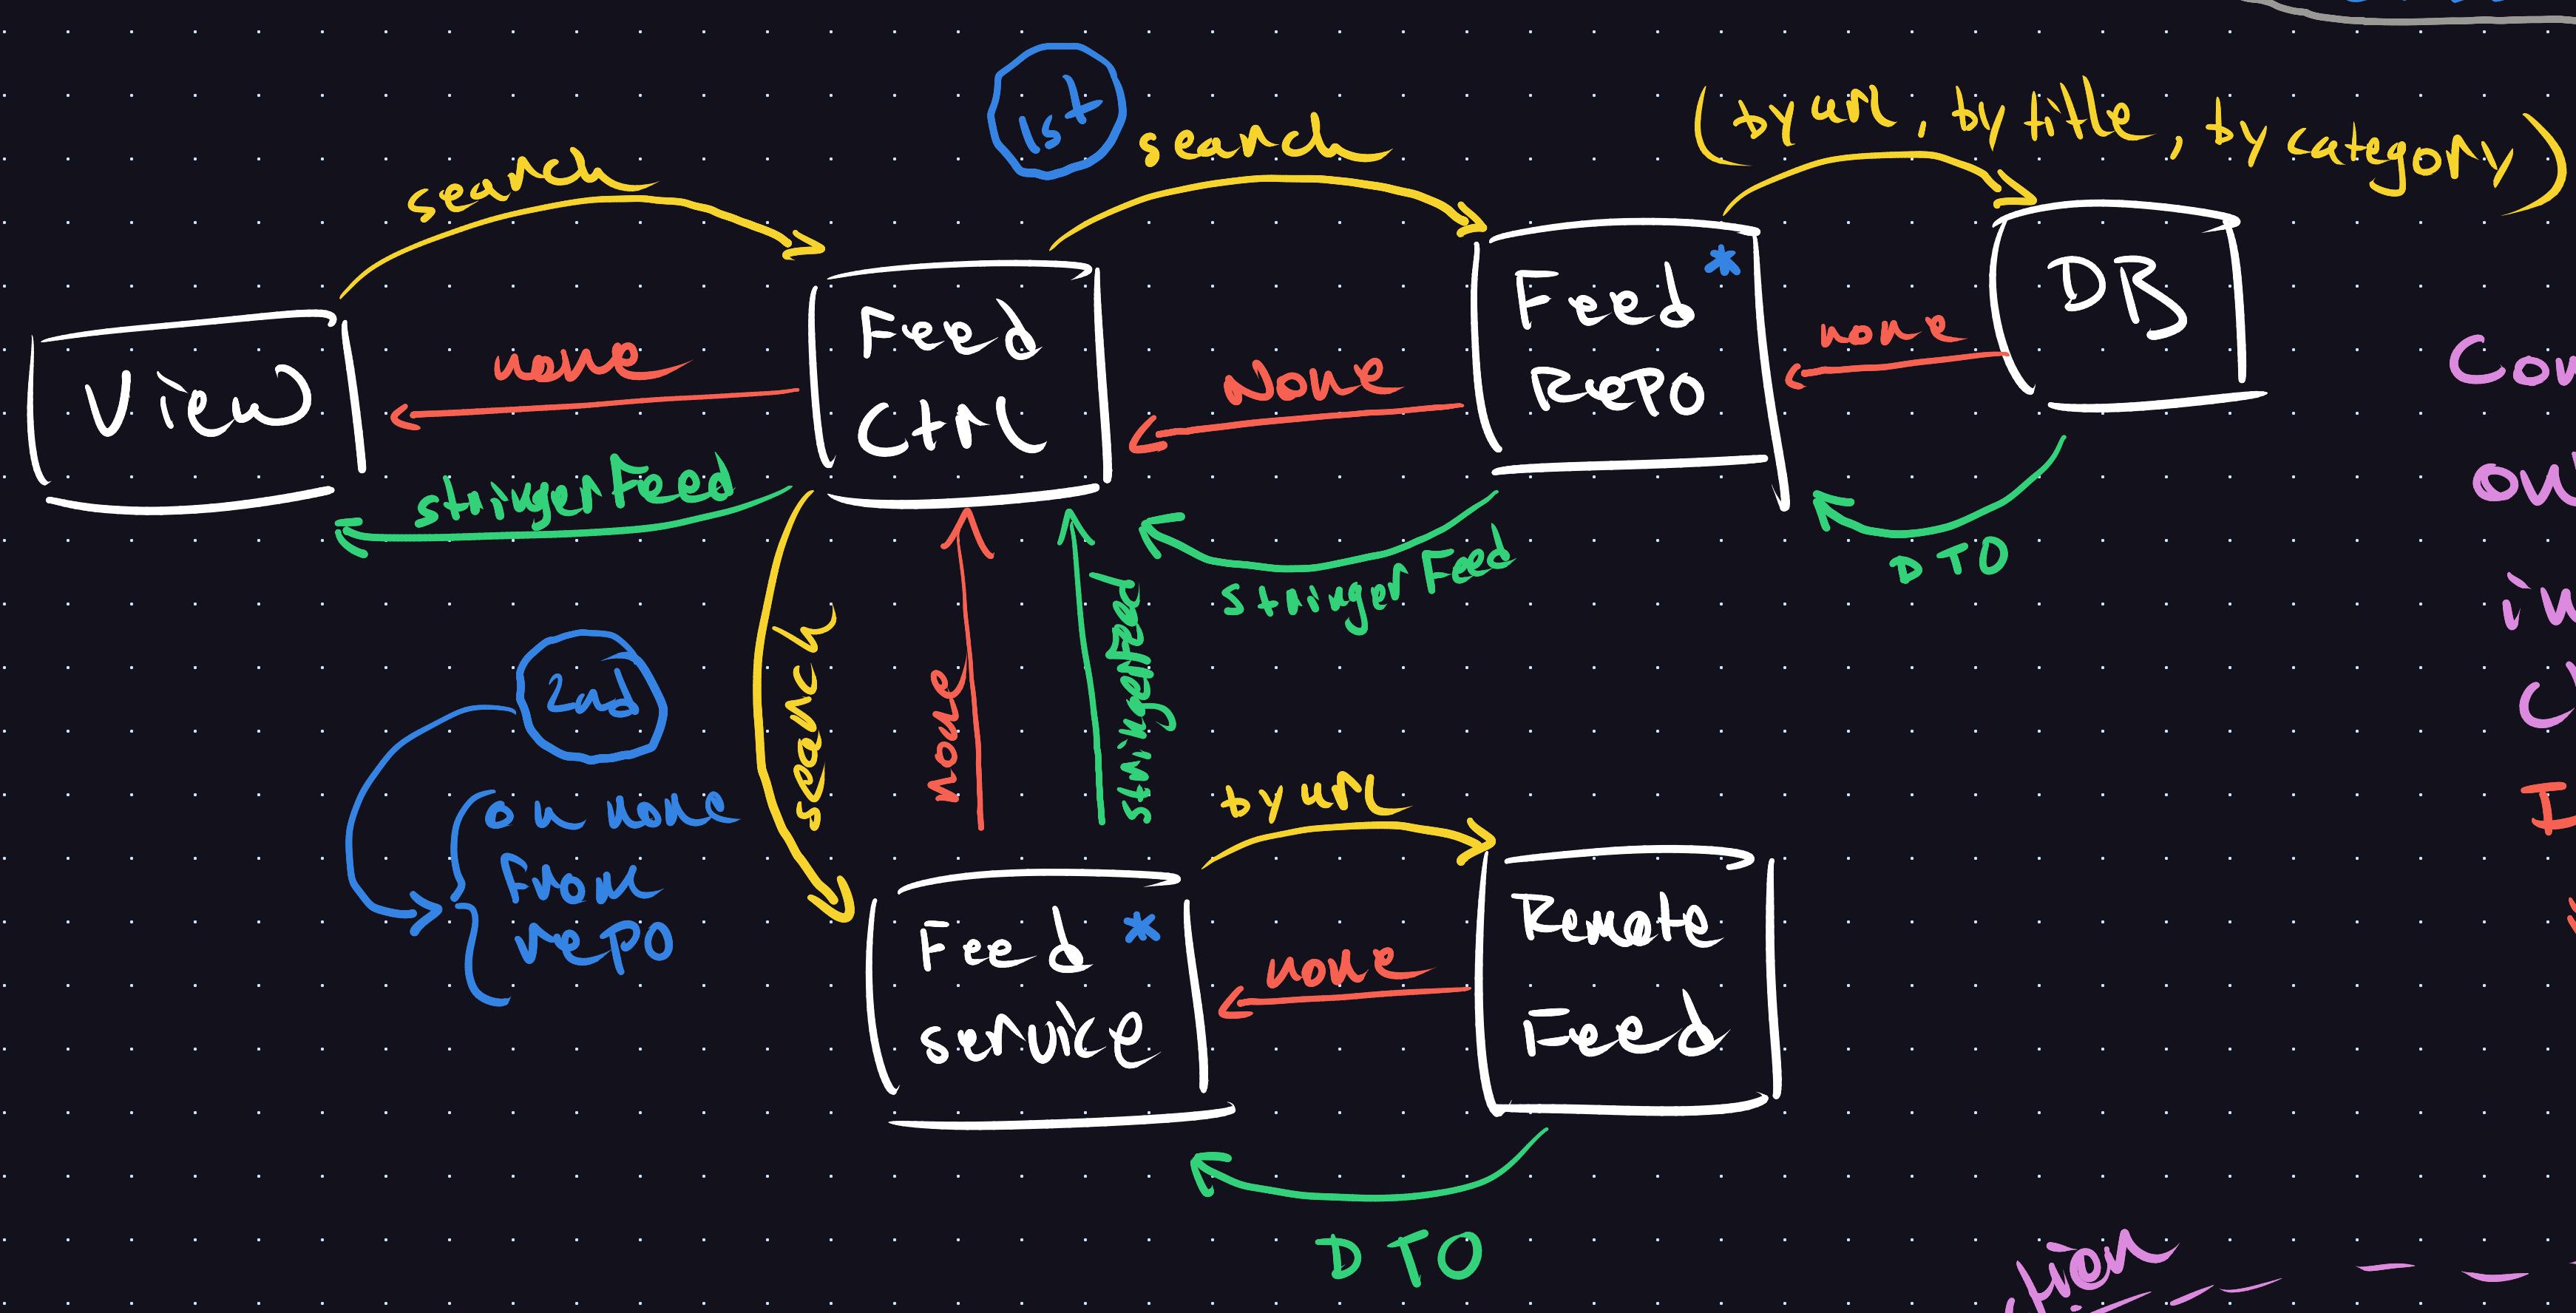

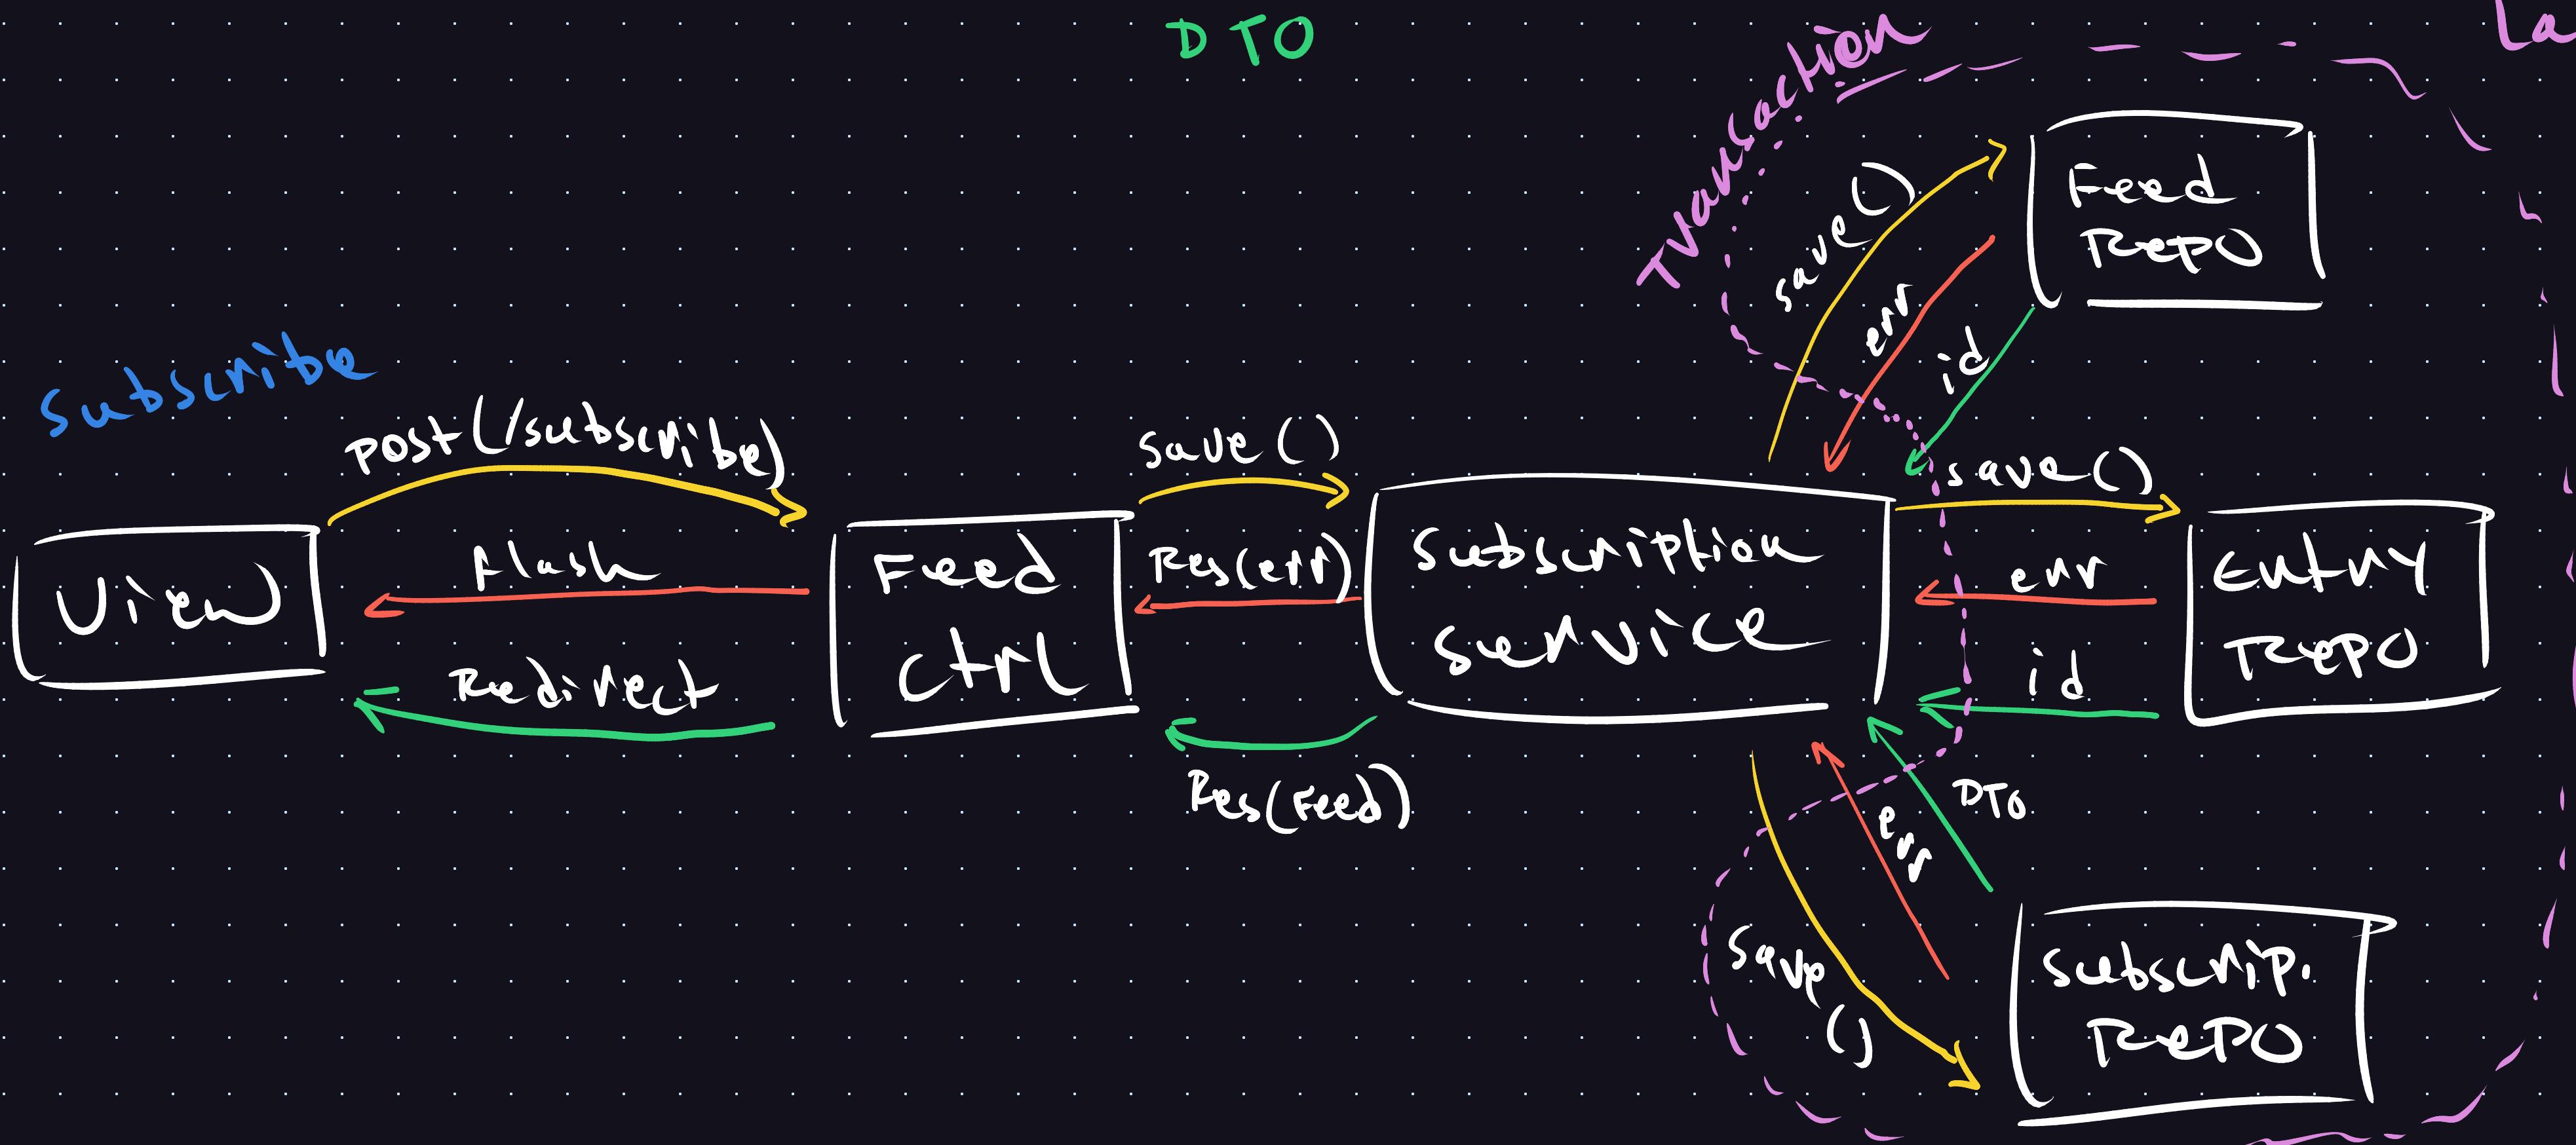

Stringer feed flow

[Search] (remote)

* Transform DTO to class
Request OK
Response OK
Response !OK | Null

Controller should only receive instantiated classes.
It should never instantiate them
ie: No DTOs in controller layer.
